- Refer to M.S.D.S. for additional safety information.

## HMIS RATINGS

## Syntheso Neutral Cleaner Concentrate

- **Non-ionic Wetting Agent**
- **Lemon Scented**

SYNTHESO Neutral Cleaner Concentrate is formulated for use on all surfaces. Works well in hard water and contains no harsh or abrasive ingredients.

### DIRECTIONS

**For General Cleaning:** Dilute 1 ounce per gallon of water. More stubborn soils may require a more concentrated dilution.

**For Improvement of Spreading, Quick Wetting of Fungicides and Insecticides:** Use 1 to 5 pints per 100 gallons of spray.

**For Spreading and Quick Wetting of Herbicides:** Use 5 to 10 pints per 100 gallons of spray.

**For Thatched and Compacted Areas:** Apply 1 quart per 1,000 square feet in 10 to 15 gallons of water.

**For Inhibition of Dew Formation on Greens:** Apply 5 pints with 100 gallons of water to 25,000 square feet. One application will inhibit dew formation for a period of 2 to 3 days.

Rates may vary with conditions of application. Use just enough to form a film. Excessive rates may result in excessive foaming and run-off.

**For Controlling Dust:** Apply 5 pints with 100 gallons of water. Coat area thoroughly with a coarse spray.

**For Fire Fighting:** Dilution of 1:400 will increase efficiency and flow of water through hoses and pipes.
