

Neutral Heavy-Duty Degreaser Concentrate

Got Grease? Get GreaseSol™ 7

Powerful Degreaser

GreaseSol™ 7 is a powerful degreaser that removes a wide spectrum of soils. GreaseSol™ 7 emulsifies lubricants, tar, petroleum grease, animal fats, proteins, vegetable oils, soap scum, and more. Its foaming property provides extended contact time, ensuring complete removal of even the toughest grease.

- ✓ Excellent Performance
- ✓ Neutral Formulation
- ✓ Removes Wide Spectrum of Soils
- ✓ Readily Biodegradable
- ✓ Phosphate-Free
- ✓ Silica-Free
- ✓ ECO Friendly & Non-Toxic
- ✓ Non-Mutagenic
- ✓ Butyl-Free
- ✓ Non-Caustic

The Power of 7™

In recent years the cleaning trends have shifted to neutral cleaners. These cleaners offer numerous advantages over the extremely acidic or alkaline cleaners. Careful blending of cleaning agents has led to the development of GreaseSol™ 7, a neutral heavy duty degreaser. With GreaseSol™ 7 there is a reduced risk of oral, dermal, and inhalation toxicity. If released into the environment, there is a reduced effect on aquatic plants and marine animals.

Versatile & Safe

GreaseSol™ 7 can be used on any surface not harmed by water. It is safe to use on metal, floors, walls, tile, plastic, porcelain, and ceramics. It can be used as a heavy duty degreaser, marine cleaner, parts washer, all-purpose cleaner, bathroom cleaner, floor cleaner, vehicle cleaner, spot cleaner and more. GreaseSol™ 7 does not contain any caustic soda. It does not leave any slippery residue behind thereby reducing the possibility of slip and fall accidents.

Neutral Heavy-Duty Degreaser Concentrate

ECO-Friendly and Non-Toxic

GreaseSol™ 7 is an environmental friendly, ecologically sound, heavy-duty industrial degreaser. It contains no harsh chemicals such as butoxyethanol, nonylphenol, or other toxic chemicals. **GreaseSol™ 7** is readily biodegradable. It is phosphate-free and silicate-free. It meets CARB¹ and US EPA criteria for classification as an LVP-VOC² product. It will not add to the total VOC count in any industrial facility. It will not upset the eco-system of water and waste treatment facilities.

¹ CARB= California Environmental Protection Agency Air Resources Board

² LVP-VOC= Low Vapor Pressure Volatile Organic Carbon

Directions For Use³

Recommended dilution depends on type of degreasing and soil conditions. Refer chart below.

Condition	oz/gal	ml/liter
Light Duty Degreasing	1-2	8-16
Medium Duty Degreasing	4-6	32-48
Heavy Duty Degreasing	10-14	80-112

Apply with a mop, sponge, brush, pressure washer, or auto scrubber. Allow the solution to penetrate the soil for 4 to 5 minutes. Scrub with brush or clean cloth as necessary.

Rinse with water.

Super Additive⁴

GreaseSol™ 7 is super strong. It can be used as an additive to enhance the power of degreaser/cleaner currently in use. Simply add 0.5 - 2 oz/gal of **GreaseSol™ 7** to the cleaning solution and watch the improvement in cleaning.

^{3,4} Must pre-test in an inconspicuous area to evaluate surface compatibility.

Refer to SDS for additional Safety Information.
