

Super Strong Cleaner with BlueShield™ Protectant Technology

Shark Attack Professional™ is the most powerful restroom cleaner. It removes hard water stains, soap scum, lime and uric acid salts from hard restroom surfaces such as bowls, urinals, shower stalls, ceramic tiles, sinks, bathtubs, water fountains and more. It can be used as-is or diluted with equal parts of water.

Shark Attack Professional™ is a synergistic and powerful blend of three (3) acids (Phosphoric Acid, Glycolic Acid & Citric Acid) that can be used on surfaces where Hydrochloric Acid cannot be used. The thickened BlueShield™ formula clings to vertical surfaces for extended contact time and superior cleaning.

BlueShield™ Protection

The new **BlueShield™ Technology** shields surfaces from soil, soap scum, hard water stains and more. With less build-up, the cleaning time and cleaning costs are reduced.

Directions for Use

Apply **Shark Attack Professional™** directly on the area to be cleaned. Allow product to sit and penetrate for several minutes. Scrub and wipe off with cloth,

sponge, or bowl swab. Rinse thoroughly with water. If unsure of a surface, particularly METAL, test in an inconspicuous area using a small amount before application. For best results, use regularly to prevent soap scum and hard water stain build-up. When used on metal surfaces, product should be wiped and rinsed immediately.

HMIS Rating

Flammability: 0
Health: 2
Reactivity: 0
Personal Protection: B

Properties

pH: <1.0
Appearance: Pink
Fragrance: Citrus

Ingredients

Water (7732-18-5), Phosphoric Acid (7664-38-2), Glycolic Acid (79-14-1), Citric Acid (77-92-1), C9-C11 Ethoxylated Alcohols (68439-46-3)

Packaging

Quart: 12/32 oz
